## MISSION

To be the most trusted steel partner by delivering verified quality materials, maintaining integrity in every transaction, and standing by our commitments from quotation to final dispatch. We focus on building long-term relationships through reliable service, responsive support, and problem-solving that helps customers execute their projects without delays or uncertainty. Our mission is to earn trust daily, through performance, transparency, and consistency.

## VISION

To lead the steel distribution industry through consistent quality, dependable supply, and disciplined on-time delivery. We aim to offer competitive, transparent pricing while building practical, customized solutions for every customer segment we serve, from small traders to large infrastructure projects. Our vision is to make steel procurement simpler, faster, and more trustworthy for businesses across India.

# OUR BUSINESS STORY

## Late Shri. Udit Narayan Vishwanath Sultania

The bold, clear lines from Late Shri. Udit Narayan Vishwanath Sultania ji **1. Baatein spasht kiya karo. 2. Jeevan me vyapar isliye karna hai ki hum ishwar ka diya kaam, Seva ke roop me kar sakein.**

The journey began on **12 April 1960** with a steel retail shop in Shivrinarayan. Over the decades, the operation expanded from local retailing to pan India organised sourcing, bulk supply, and structured dispatch systems and in 1998 we started at Raipur by the name of **Vijay Laxmi Steels** & In 2008, the next

chapter began with the formation of Vishwa Geeta Ispat, carrying forward the **family's 4th Generational legacy** with stronger systems and wider reach with the same values, integrity & ethics.

### What this legacy gives customers

- Trust built through repeat execution
- Process-driven dispatch planning
- Stable sourcing even during volatile markets

Late Shri. Udit Narayan Vishwanath Sultania

Late Smt. Geeta Devi Sultania

**Vishwa** stands for trust earned through clear communication and clean dealing.

**Geeta** stands for values, discipline, and doing the right thing when it is inconvenient.

### What we believe:

A deal is complete only when the **customer has full clarity and total confidence** in every detail. We treat quality and timelines as equally critical, and we deliver both with discipline and consistency. Business isn't just transactions for us; it's a responsibility to strengthen **society through reliable supply** and honest conduct.

We operate with **long-term thinking**, because trust is earned order by order. Our purpose is simple - support real projects with dependable steel and principled service.

## Core Values

### Focus

We stay locked on what matters: grade accuracy, rate clarity, and on-time dispatch. Every order gets sharp attention from quote to delivery.

### Dedication

We treat every requirement like it's urgent and every customer like it's long-term. Follow-ups are proactive, not afterthoughts.

### Quality

Only verified material with proper specs, brand assurance, and consistent standards. What you order is exactly what you receive.

### Integrity

We keep deals transparent, documentation clean, and commitments non-negotiable. No shortcuts, no surprises, just straight business.

### Reliability

When we commit, material moves. Strong supply planning and logistics control keep your site running without gaps.

### Customer First

Your timelines and constraints come before our convenience. We recommend what fits the job, not what's easiest to sell.

### Tailored Services

Different projects need different solutions. We align sizes, brands, dispatch plans, and billing to match your workflow.

# Meet our Leaders

**Mr. Sharad Sultania**  
DIRECTOR  
Vishwa Geeta Ispat

**Sharad Sultania** has been part of the working side of the business since 21 February 2004. An Engineering graduate from Bharatiya Vidyapeeth, Pune, he prefers practical execution over complicated planning.

He focuses on aligning customer requirements with supplier commitments — planning stock, coordinating dispatch and keeping dealings realistic so business remains comfortable for both sides. In his view, most trade problems arise from unclear communication, not market conditions.

For him, a one stop steel solution comes from reliability in everyday work. Honesty in conversation, integrity in commitments and ethical conduct during tight situations are what keep relationships steady over time.

Yoga and meditation remain part of his daily routine, helping him stay calm and balanced while handling responsibilities.

**Mr. Sudhir Sultania**  
DIRECTOR  
Vishwa Geeta Ispat

Associated since 1 May 2008, **Sudhir Sultania** is an MBA graduate from IIMM Pune with executive education from IIM Ahmedabad. He naturally works toward long-term associations rather than short-term gains.

He looks after market relationships and direction, ensuring customers feel secure in dealing and suppliers feel respected in association. He believes dependable behaviour — fair dealing, clarity and standing by words — is what actually creates a one stop steel solution.

As President of the Trade Solution Association, Raipur, he actively promotes ethical trade practices and cooperation within the business community. He believes in creating leaders and building strong teams, as sustainable growth always comes through people.

**Mr. Akshat Bondiya**  
DIRECTOR  
Vishwa Geeta Ispat

Since joining on 18 August 2021, **Akshat Bondiya** represents the newer generation, bringing fresh energy while respecting established ways of working. He focuses on faster responses, clearer updates and smoother coordination so everyday business becomes easier for customers.

He works on improving communication flow and adopting practical technology that supports working rather than complicates it, strengthening the idea of a dependable one stop steel solution.

Akshat believes growth should come with trust modern systems with traditional values and aims to carry the legacy forward with responsibility and enthusiasm.

**Mr. Chahak Kedia**  
DIRECTOR  
Vishwa Geeta Ispat

**Chahak Kedia** brings a fresh and forward-looking perspective to the organization. An alumnus of IIT (BHU) and a Post Graduate (MBA) from IIM Ahmedabad, he combines analytical thinking with practical business understanding.

He focuses on new ideas, structured decision-making and identifying opportunities that keep the organization prepared for changing market dynamics. His approach balances data with ground realities, improving planning, communication and responsiveness.

Chahak believes growth comes from continuously improving systems while keeping relationships strong

## Industry Overview

Connects manufacturers, transport, and buyers under a single coordination system

Reduces "multiple follow-ups" by centralizing dispatch updates and delivery tracking

Supports split deliveries, phased supplies, and multi-location dispatch planning

Contractors and EPC teams (time-bound project deliveries)

Fabricators (section accuracy, repeat orders, fast replenishment)

Industrial procurement (documentation, repeat)

Traders (availability, competitive working rates)

Clear quotations with defined specs, brand, grades, and terms

Dispatch planning aligned to site needs and crane unloading schedules

Documentation discipline: invoices, e-way bills, and supporting documents maintained cleanly coordination for MTC/Test Certificates

## Where VGI fits

VGI fits in by reducing that complexity and making the flow accountable end-to-end. We connect manufacturers, transporters, and buyers into one coordinated system so customers don't have to chase multiple points for updates, dispatch status, and delivery timelines. This works especially well for contractors, fabricators, industrial procurement.

From quotation to delivery, VGI maintains process discipline so execution stays predictable. Quotations are aligned to defined specs, grades, and terms; dispatch is planned around site requirements; and documentation is handled with consistency to avoid delays in approvals and billing. Where required, we also support quality documentation

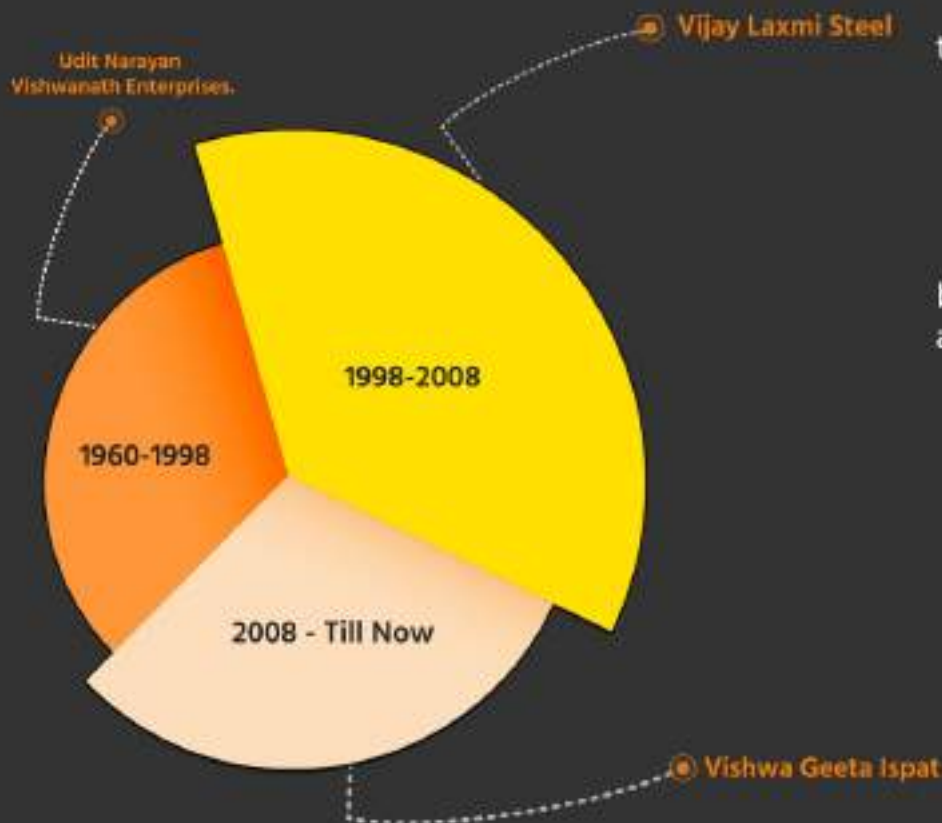

**Built** on **Values**  
**Running** on **System**

# Company Stats Dashboard

Steel Network, Integration and Corporate Alliances

Each generation added capability stronger sourcing, tighter dispatch control, wider distribution, and better customer support. ✓

What began with small teams grew into a structured trading and distribution operation built for high-volume execution. ✓

The basics are still our biggest strength: rate clarity, availability confirmation, and accountable delivery follow-up. ✓

1960: Udit Narayan Vishwanath Sultania (Shivrinarayan) ✓

1998: Vijay Laxmi Steel (Raipur) ✓

2008: Vishwa Geeta Ispat (Raipur) ✓

We maintain a **broad ecosystem of producers** and brands across TMT, structural steel, pipes, wire products, plates, sheets, and site utility items. This gives customers a **choice on brand**, specification, and timeline without compromising accountability.

Headquartered in **Raipur**, we serve customers across India through supply points and transport partnerships that help execute both routine and urgent dispatches **Coverage is not just reach its diversity** and efforts to the company

We focus on a work environment where people **stay, learn, and execute with clarity**. High retention helps keep customer coordination consistent year after year Several team members have been with us for **20+ years** who never leave.

PRAKRITI GREENS

Urgent dispatch me bhi support mil jata hai.

**Mr. Vinit**  
CIVIL ENGINEER

Documentation aur material dono accurate milte hain.

**Mr. Kunal Soni**  
KUNAL STEELS

Repeat orders ka reason — trust and fair dealing.

**Mr. G. Srikant**  
SHIVAM STEEL CORPORATION

Transparent rates aur smooth buying experience.

# Our Responsibility Towards Society & Customers

## Vishwa Geeta Dhenu Govind Pakshi Seva Dham

The Vishwa Geeta family is actively engaged in a dedicated service initiative through **Vishwa Geeta Dhenu Govind Pakshi Seva Dham** in Parsada village. Through this Gaudham, we provide organized, safe, and dignified care for Gau Mata, Nandi, and also support bird conservation.

To strengthen the social purpose of this initiative, **Smt. Kaushalya Devi Sai Ji**, spouse of the Hon'ble Chief Minister, performed the Bhoomi Pujan at the Gaushala premises and expressed her positive interest in the Gaushala and community-focused work.

The Seva Dham is planned to serve approximately **250 to 300 Gau Mata**, and includes a Gau Mata temple within the premises, reflecting a meaningful blend of faith and service. We have also created a dedicated **Bird Tower** to provide shelter and protection, with capacity for approximately **2,000 birds**.

Along with Parsada, we also extend our seva to other Gaushalas in Raipur, including Santoshi Nagar Gau Dham and Hirapur Gau Dham, where we regularly provide vegetable seva and green fodder (hara chara) seva to support daily nourishment and care.

Our focus is on supporting animals that need special care, including injured or accident-affected Gau Mata, stray animals found roaming on roads, and non-milking cows, ensuring they receive equal protection, nourishment, and respect.

Vishwa Geeta Dhenu Govind Pakshi Seva Dham reflects our belief that service and protection are not just responsibilities, but values, carried forward with compassion and long-term commitment.

**BIRD TOWER**

## Covid-19 Support - 5100+ Food Distribution

During the COVID-19 pandemic, the Vishwa Geeta Sultania Parivar came forward to help people who were facing serious difficulties. Many families were unable to leave their homes because they were infected with the virus, under quarantine, or afraid of stepping outside. Some families had already lost their loved ones, and many did not have proper food arrangements during this difficult time.

Understanding the situation, our Vishwa Geeta team took responsibility to support such families across Raipur.

We personally visited different areas and delivered food from door to door to people who needed help the most. At that time, we gave more importance to social service than our business activities, because helping people in need was our biggest priority.

Our team members worked with dedication, care, and a selfless spirit. Every day, we provided free meals to those who could not arrange food for themselves. On average, we distributed more than **5100+** free meal plates during the pandemic period.

Along with cooked meals, we also distributed free ration kits to several needy families so that they could manage their food requirements for a longer time. This service was not just about food distribution it was our effort to stand with society during one of the most challenging times. We believe that supporting the community in difficult situations is our responsibility. The entire initiative was carried out with compassion, humanity, and a strong commitment to helping others.

## Apna Ghar Ashram Seva Initiative, Village Godhi, Raipur

Inspired by **Apna Ghar Ashram**, Bharatpur, the Vishwa Geeta Sultania family supports a similar service initiative in Raipur, operated at Village Godhi. The centre is led by **Gopal Prasad Agrawal Ji** as the Sanchalak and **Gopal Prasad Sultania Ji** as the Adhyaksh.

Daily life at the Ashram follows a structured routine focused on health and emotional well-being. Along with regular care, the Prabhu Ji are encouraged to participate in yoga, meditation, bhajans, simple games, and other activities that support a positive and healthy lifestyle. Nutritious food is served on a fixed schedule, including morning breakfast, afternoon lunch, evening tea, and night dinner, **ensuring consistent nourishment and stability.**

This centre is **dedicated** to serving "Prabhu Ji" individuals who are often found abandoned on roads, injured, or lying in vulnerable conditions, including those facing mental distress or unstable mental health and who are unable to care for themselves. Such individuals are rescued and brought to the Ashram, where they **receive complete support** including bathing and personal hygiene care, healthy and nutritious meals, and medical assistance.

In many cases, the team also works to trace and reconnect families, and several Prabhu Ji have been successfully reunited with their relatives, creating deeply emotional moments for families who had lost hope of meeting their loved ones again.

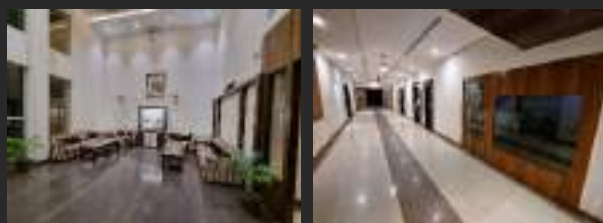

प्रभुजी जिन्हें बचाया गया

Along with daily care, the Ashram also celebrates key festivals such as Diwali, Raksha Bandhan, Ganesh Chaturthi, and others. People who wish to serve are welcome to join the celebrations with the Prabhu Ji, helping create a warm environment **where everyone is cared for with the spirit of a family.**

## Mangal Bhawan Shivrinarayan

Vishwa Geeta Sultania Parivar has built a **Mangal Bhawan** (community wedding hall) in Shivrinarayan, where mass marriage ceremonies are organized regularly. Through this initiative, the family also supports the weddings of needy families by helping with arrangements and expenses. Many families who want to get their children married within a limited budget receive selfless, ongoing support, so the weddings can be conducted with dignity and proper planning.

## The First Formal School of Shivrinarayan

In the 1970s, **Shri Vishwanath Sultania Ji** made a contribution that permanently changed the direction of Shivrinarayan. At a time when the town had no formal school, he initiated **Saraswati Shishu Mandir** and ensured it could start properly, not as an idea, but as a functioning institution. He donated the land and the building, and went a step further by supporting the setup with essential materials needed to run the school. What this really means is the school didn't have to wait for "future support" to begin. It could open its doors and start teaching from day one.

"Saraswati Shishu Mandir - Shivrinarayan"

This became the first-ever school in Shivrinarayan, and for many families, it was the first real opportunity to educate their children close to home. Over time, the impact multiplied, because education does that. One school becomes hundreds of educated students. Those students become working professionals, responsible citizens, and stronger households.

This initiative wasn't about publicity or credit. It was about building something that would outlast any one person. Starting a school is one of the clearest forms of long-term service, because it creates progress that continues for decades. Even today, this contribution stands as a reminder of the Sultania family's belief: if you want to strengthen a community, you don't only build businesses. You build institutions, and education comes first.

## Social Cause - Never Leaving Anyone Behind!

On special and meaningful occasions such as birthdays, wedding anniversaries, and family celebrations, the Vishwa Geeta Parivar chooses to celebrate by **giving back through a service initiative that supports free Jaipur Foot (prosthetic limb) donations.**

Through this contribution, artificial limbs are provided at no cost to individuals who need them, helping them regain mobility, stability, and independence in daily life.

For many beneficiaries, a Jaipur Foot is not just a medical support. It becomes a path back to work, family responsibilities, and a more confident life.

This initiative reflects the Vishwa Geeta Parivar's belief that true celebration is measured not only by personal joy, but also by the **positive impact created for others**, especially for those who need support the most. Each donation is a step toward restoring dignity and enabling a more self-reliant future.

## Social Cause - Visit Old Age Home

Vishwa Geeta Family regularly visits old age homes to spend time with **senior citizens and support their daily needs.**

During these visits, our team provides meals and refreshments, and shares meaningful moments with the residents. For us, this is a simple way to show respect and care for elders, and to ensure they feel valued, heard, and supported.

Vishwa Geeta Ispat provides food and refreshments, and engages with residents in a respectful, family-like environment. These visits **reflect our belief that service begins with compassion and presence.**

## Social Cause - Donate Tricycle

Vishwa Geeta Parivar supports the community through free **Tricycle distribution** for individuals who need mobility assistance. This initiative is aimed at enabling easier movement, greater independence, and improved day-to-day access for beneficiaries.

We believe meaningful support is the kind that restores dignity and makes life more manageable for those facing physical challenges.

**Mobility should never be a luxury.** Through our free Tricycle donation initiative, Vishwa Geeta Parivar helps people who require mobility support regain confidence and independence. Each wheelchair provided is a step toward a safer, more self-reliant life for the beneficiary and their family.
